This course reflects the role of a skilled operator in the digital film and television production industry. Students will be provided with DSLR cameras and professional video equipment to shoot a range of structured programs from scene re-enactments and music videos to documentary and short film productions. Students will work in a range of practical roles, including collaborative pieces and individual task competency-based assessments across a comprehensively structured theoretical base. Students will also learn how to broadcast and stream their products across both school and local community networks. The course is delivered in class and all the resources are provided through our online portal in our customised course. Students will be provided with all the necessary resources and materials including computers, software, lighting, microphones, cameras, etc. The course is delivered in our new Film and Media studio that was designed with this course in mind. The assessment of this course includes observational competencies, peer-related tasks, term tests, worksheet and essay-based assignment work. Students will be given the opportunity to enter film productions in national and local student film festivals and competitions. This course has been developed with both TAFE and university pathways in mind.
